Joel Rosenberg - WHY BENAZIR BHUTTO'S ASSASSINATION MATTERS: Pakistan is just one attack away from bin Laden seizing power - Thursday, December 27, 2007 - ...to be blunt: Pakistan and her nuclear weapons are in danger of falling into the hands of Islamic radicals....such radicals have attempted to assassinate Pakistani President Pervez Musharraf multiple times in the last few years, hoping to seize control of the government and impose sharia law

<http://joelrosenberg.blogspot.com/>

Why this could bring us one step closer to the fulfillment of Ezekiel 38:

1. Pakistan could be in this alliance of nations who attack Israel because of their close proximity to Iran and the “Stan’s”
2. Pakistan presently has more Al Qaida training camps, within its borders, than does any other country in the world
3. Pakistan is where Osama bin Laden is believed to not only have taken refuge but is still alive and fully operational
4. Pakistan has for some time now possessed nuclear weapons as well as the much needed long range delivery systems
5. Pakistan produces more and more terrorists who are currently threatening the citizens of the United States and Israel
6. Pakistan has given both North Korea and Iran their technological assistance in order to develop nuclear programs.

Time Magazine’s Person of the Year Vladimir Putin Tsar of the New Russia - “TIME's Person of the Year is not and never has been an honor. It is not an endorsement. It is not a popularity contest. At its best, it is a clear-eyed recognition of the world as it is and of the most powerful individuals and forces shaping that world—for better or for worse.”
